

MIA KARLOVA GALERIE

Beacon of Light, Light Sculpture, Madagascar Quartz

Beacon of Light. Madagascar Quartz, 2023

Unique Madagascar quartz boulder (28x69x37cm), sandblasted glass D50, natural rope, steel pulley
50 x 50 x 50 cm

The gallery presents an artistic collection by Amsterdam based Dutch designer Jesse Visser called "Beacon of Light". Born as a search of tranquility and balance the Beacon is a combination of wandering and holding energies. Each object has a unique boulder, found in the nature. A sandblasted glass sphere balanced by a minimalist custom-made pulley. The Beacon of light is a poetic functional sculpture, offering sense of peace like a light and anchor in the mist.
