Pop Art Pills

Mixed media wall sculpture

Edition of 8

Signed and dated.

This work is accompanied by a certificate of authenticity.

Diana Korn's "Art Pill" works engage with societal development. She reflects on and questions our consumption behavior, which is characterized by contradictions and opposites. While lifestyle choices, advancements, and innovations enrich and advance our lives on one hand, they also distract us from the truly significant aspects of life on the other. In her "Art Pill" creations, Diana illuminates both the alluring and positive aspects of consumption as well as the often-suppressed negative consequences.
